WorkPlace newest release focuses on advancing mobility, accelerating approvals, OCR, AI & machine learning, and superior user-centric experiences.

Empower teams to boost productivity, gain visibility, and reduce cost!

**Smart OCR Invoice Capture**
Go beyond paperless invoice processing and into capturing the data down to the line-level, going from points A to Z accurately in seconds.
- Smart OCR capabilities with AI
- AI & machine learning features
- Automated invoice capture
- Optional 3rd party integration
- PO & non-PO invoice capture

**Requisition Mobile App**
Process requisitions while on the road with WorkPlace mobile App. Browse and shop company catalogs, request items for purchase, save to cart, submit items, approve/reject requisitions, and add comments from anywhere, anytime.
- Full visibility of the entire requisition cycle
- Line-level review, approval, and rejection capabilities
- Catalog & non-Catalog shopping

**Powerful Reporting Metrics**
Gain insight from a powerful 360° view of all your KPI’s and metrics in one single dashboard, empowering you and your team to manage, evaluate, improve, and optimize every area of the business.
- 15 out-of-the-box metrics and reports
- Powerful single-glance view of your KPI’s
- Create unlimited personalized charts, metrics, reports
- Export capabilities

**Modern Interface**
Onboard users more quickly and gain higher user adoption rates with our intuitive, easy to navigate interface. Our UI allows users, regardless of skills level, to go through the procurement and expense cycle with ease.
- Type to Search feature
- Intuitive dashboard
- Effective workflows
- Meticulously designed components
- Balanced layout

**Google Maps Mobile Capabilities**
Save time while traveling by automatically calculating mileage from the Mobile App, adding it seamlessly to your expense reports.
- Seamless map integration for mileage reimbursements
- Simple, accurate accounting of mileage driven
- Select, store routes and mileage alongside transactions for audit compliance and workflow
- User-based personal travel and standard commute deductions

**Payment Processing Capabilities**
Process Vendor and Employee payments securely, quickly, and directly from WorkPlace centralized P2P (Procure-to-Pay) platform.
- Available for WorkPlace Enterprise Standalone
- Payment Batch capabilities
- Automatic terms discounts calculation
- Automatic electronic payments
- Option for standard payment provider integration
- Personalized integration option via WorkPlace DIAPI or report exports
- Automatic transmission of remittance information to suppliers
- Full financial journal tracking of discounts, payments, multi-currency exchange gain/loss
