

## CUSTOMER SUCCESS

# Concorde Career College

Concorde Career Colleges specializes in healthcare education and has been training medical professionals for nearly 50 years. Concorde Career College has 17 campuses across eight different states and continues to grow.

“WorkPlace helps capture the true audit, approval process, and visibility.”

- Rebecca Oxley, Purchasing Manager

### CHALLENGES

- Manual process - spreadsheets, email, and paper
- Inefficient tracking of requisitions
- Excess spending

### REQUIREMENTS

- Streamline purchase process
- Real-time product costs
- PunchOut capabilities

### SOLUTION

*Paramount WorkPlace provides a requisition solution with PunchOut capabilities to maintain auditability, approvals and visibility.*

### BENEFITS

- Improved accuracy
- Reduced spending
- Scalable to meet growth track
- Real time product cost insight
- Increased purchase visibility
- Requisition tracking and approval
- PunchOut capabilities

PunchOut was the biggest component to achieve accuracy since the catalog stays current and up-to-date with new product features and pricing. If the product changes after the initial request was put in, the system will automatically update which avoids confusion, inaccuracies and reduces over spending.

Because of scalability, as Concorde Career Colleges continues to grow, they will be able to continue to use all the functions and customizations that were made in Paramount WorkPlace.
